**SHIVANSH**  
ENGINEERS & INFRA LLP

**Shivansh Engineers and Infra LLP is an engineering and infrastructure services company specializing in structural fabrication, piping works, EPC support and NDT inspection services. Based in Uttar Pradesh, the firm focuses on quality-driven execution, safety compliance, and timely project delivery across industrial and infrastructure sectors.**

## About SHIVANSH

Engineering Future  
Infrastructures With *Integrity*

Founded with a passion for engineering excellence, **Shivansh Engineers & Infra LLP** is a dynamic startup construction and engineering company committed to delivering dependable civil, mechanical, and infrastructure solutions. Though young in establishment, the company is driven by experienced leadership, technically skilled manpower, and a strong focus on safety, quality, and timely project execution.

We undertake civil construction, mechanical works, structural steel fabrication and erection, piping and pipeline projects, and industrial manpower supply for refineries, petrochemical plants, power projects, steel plants, and infrastructure developments. Our agile approach allows us to adapt quickly to client requirements while maintaining strict compliance with safety and quality standards.

Our vision is to grow as a trusted engineering and construction partner by combining innovation, integrity, and technical expertise. We focus on building sustainable relationships and delivering long-term value to our clients through reliable performance and continuous improvement.

## Mission & Vision

### Our Mission

To deliver reliable, safe, and high-quality engineering and infrastructure solutions through technical excellence, efficient execution, and strong ethical practices.

### Our Vision

To become a trusted and nationally recognized engineering and infrastructure company known for operational excellence, technical competence, and integrity.

## Core Values:

At Shivansh Engineers and Infra LLP, our foundation is built on principles that guide every project, partnership and decision we make.

**Safety is non-negotiable. We prioritize safe working environments, regulatory compliance and risk management to protect our workforce, clients and stakeholders.**

### **Safety First**

**We conduct our business with honesty, ethical practices and complete transparency. We believe trust is earned through accountability and consistent performance.**

### **Integrity & Transparency**

**We are committed to delivering superior workmanship and reliable engineering solutions. Every project is executed with attention to detail, adherence to standards and strict quality control.**

### **Quality Excellence**

At Shivansh Engineers and Infra LLP, our foundation is built on principles that guide every project, partnership, and decision we make.

**We continuously enhance our technical expertise in civil, mechanical, structural, EPC support, and NDT services to meet evolving industry demands.**

**Technical Competence**

**We value time as a critical asset. Our commitment is to complete projects within agreed timelines without compromising safety or quality.**

**Timely Execution**

**We focus on understanding client requirements and delivering customized, cost-effective solutions that create long-term value and partnerships.**

**Client-Centric Approach**

**We take ownership of our commitments and responsibilities, ensuring dependable performance at every stage of execution.**

**Accountability & Responsibility**

## HSE Policy

We are committed to maintaining a safe and healthy workplace by identifying hazards, mitigating risks, complying with statutory requirements and promoting a strong safety culture to achieve zero incidents.

## Quality Policy

We strive to deliver consistent quality by adhering to defined standards, implementing effective quality management systems and continuously improving processes to exceed customer expectations.

## LEADERSHIP TEAM

### SHIVANSH ENGINEERS AND INFRA LLP

Shivansh Engineers and Infra LLP is led by experienced professionals who bring practical industry knowledge, technical competence and a strong commitment to ethical business practices. The leadership team actively oversees project execution, quality standards, compliance and operational management.

#### ***Mr. Gaurav Kumar Singh***

*Founder & Designated Partner*

Mr. Gaurav Kumar Singh leads the strategic direction and operational management of the organization. With hands-on exposure to civil and mechanical project environments, he focuses on project execution planning, resource management, client coordination and compliance-driven operations. He plays a key role in ensuring quality control, safety implementation and timely delivery of engineering and infrastructure services.

#### ***Mr. Neeraj Kumar Shanker Pandey***

*Founder & Designated Partner*

Mr. Neeraj Kumar Shanker Pandey oversees project supervision, workforce coordination, and site-level execution activities. He contributes to operational efficiency, vendor management, and execution monitoring across civil, mechanical and industrial projects. His approach emphasizes structured planning, teamwork and adherence to safety and quality standards.

## Core Services

Shivansh Engineers and Infra LLP provide comprehensive engineering and infrastructure solutions across industrial and construction sectors.

Our services are designed to deliver quality, safety and efficiency at every stage of project execution.

### Civil Construction Services

- › Industrial building construction
- › Foundation & structural concrete works
- › RCC & PCC works
- › Road & pavement works
- › Drainage & utility infrastructure
- › Site development & land preparation

## Mechanical & Structural Works

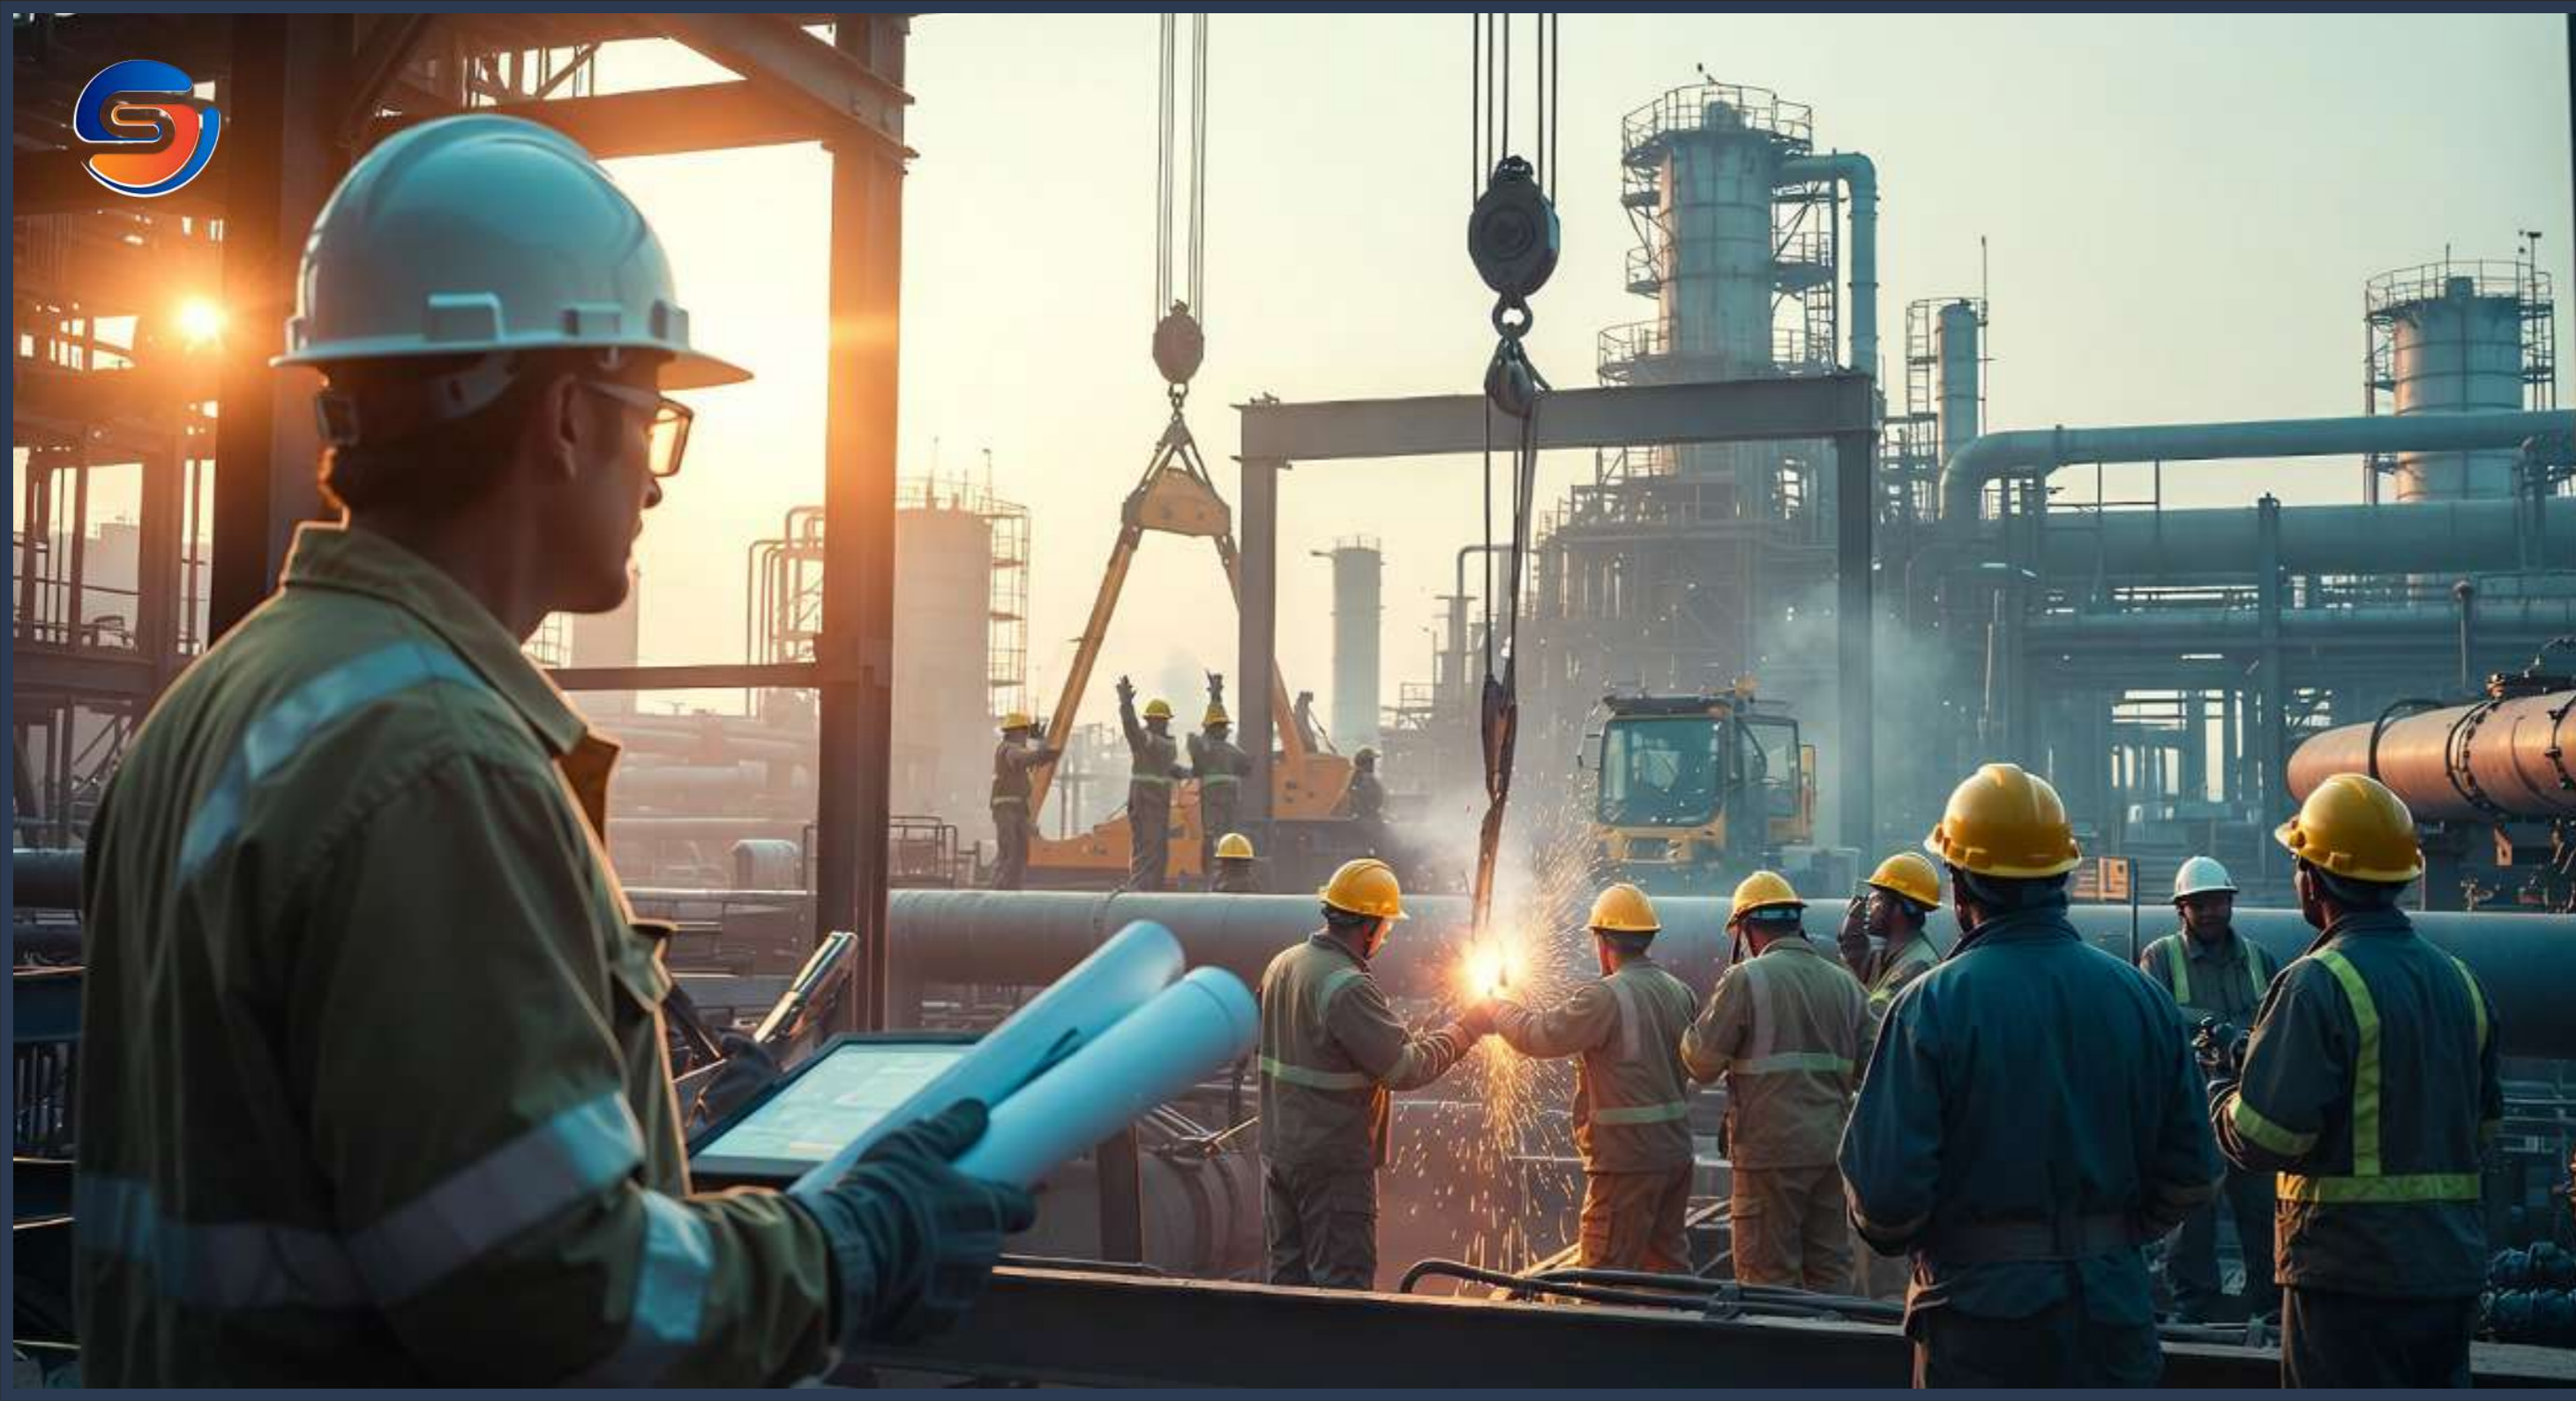

- » Structural fabrication & erection
- » Equipment installation
- » Heavy structure erection
- » Industrial sheds & platforms
- » Tank fabrication & erection
- » Steel structure works

## Piping & Pipeline Works

- › Industrial piping fabrication & erection
- › Pipeline installation
- › Hydro testing
- › Maintenance & shutdown support
- › Utility piping systems

## EPC Support Services

- » Project execution support
- » Site supervision & coordination
- » Skilled & semi-skilled manpower deployment
- » Shutdown & maintenance services
- » Industrial project assistance

## Non-Destructive Testing (NDT) & Inspection Services

- » Visual Testing (VT)
- » Ultrasonic Testing (UT)
- » Magnetic Particle Testing (MPT)
- » Dye Penetrant Testing (DPT)
- » Radiography Testing (as applicable & compliant)
- » Welding inspection & quality assurance

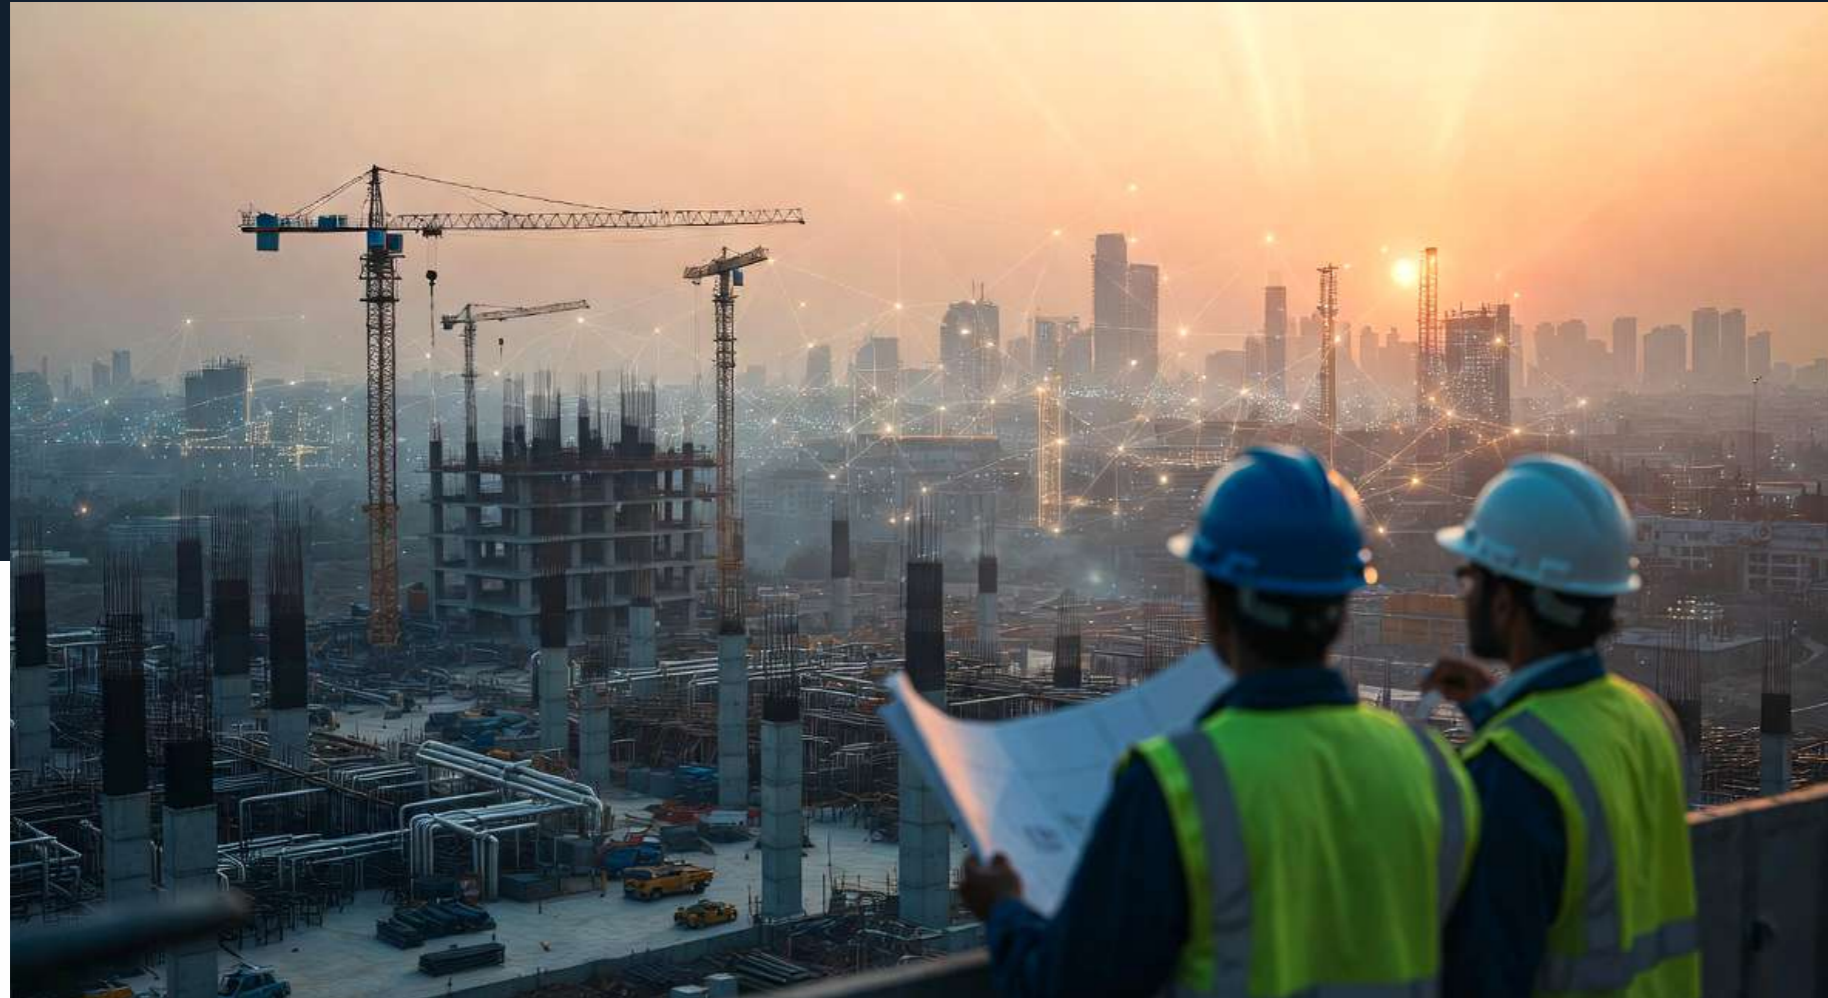

## Industrial Manpower Supply

- › Engineers & Supervisors
- › Welders, Fabricators & Fitters
- › Electricians & Technicians
- › Helpers & Skilled Workforce
- › Statutory compliant manpower (PF / ESIC ready)

## Market Presence

Shivansh Engineers and Infra LLP is a newly established engineering and infrastructure services firm based in Lucknow, Uttar Pradesh. While the organization is in its initial growth phase, it is backed by hands-on technical leadership and practical site experience in civil, mechanical and industrial project execution. The company is actively expanding its operational footprint across Uttar Pradesh and other regions of India, targeting infrastructure, industrial, and EPC sectors. With a focus on quality, compliance and reliability, the firm is steadily building partnerships with contractors, project owners and industrial clients.

## Corporate Social Responsibility (CSR)

At Shivansh Engineers and Infra LLP, we believe that sustainable growth and responsible business practices go hand in hand. As an emerging engineering and infrastructure enterprise, we are committed to conducting our operations with integrity, transparency, and social accountability. Our CSR philosophy focuses on promoting safe working environments, environmental responsibility, ethical labor practices and community development. We strive to minimize environmental impact through responsible resource utilization, waste management, and adherence to statutory safety and compliance standards. The organization encourages skill development, fair employment practices, and the upliftment of local communities wherever we operate. Through responsible engineering and conscious decision-making, we aim to contribute positively to society while delivering value-driven infrastructure solutions.

## Industries We Serve

- › Power Plants
- › Renewable Energy (Biogas / Solar / EPC)
- › Oil & Gas
- › Industrial Manufacturing Units
- › Infrastructure & Construction
- › Process Industries

## Why Choose Us

- » Compliance-driven operations (PF, ESIC, GST ready)
- » Technical leadership involvement in projects
- » Flexible manpower deployment
- » Safety-focused execution
- » Cost-effective solutions
- » Quick mobilization capability

# EQUIPMENT & RESOURCE LIST

## Tools & Equipment

Welding  
Machines

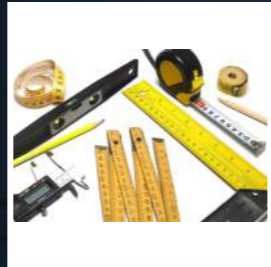

Gas Cutting  
Equipment

Fabrication  
Tools

Lifting & Rigging  
Tools

Measuring  
Instruments

NDT equipment  
(as applicable)

PPE  
& Safety Gear

## Resource Strength

Engineers

Supervisors

Skilled & Semi-skilled  
Workforce

Vendor Network For Heavy  
Equipment Mobilization
